

Download NtreisGo from Google Play or the App Store on iTunes. Choose Agent login and use your Ntreis login information.

Consumers and agents are both able to:

- ❖ Quickly locate listings via GPS location-based technology
- ❖ Search by drawing a custom shape on the map and then narrow it down further by a selection of filters.
- ❖ Save properties to favorites as well as share via text/e-mail/Facebook or Twitter!

- Property Search Options – Search for listings by city, state, zip code, address, MLS number or geo location. You can also draw a search area on a map using the lasso feature to view homes in an exact location. Hone in on the listing by using the filter options to refine your search:
  - Location-Based Search
  - Lasso Search
- Multiple Map Views – View listings on a street, satellite or hybrid map. Double tap or pinch to zoom in or out on a map.
- Listing Details – Access listing details, including photos, easily and beautifully on your Apple or Android devices. If you are interested in more details for a particular listing, simply click the pop-up bubble from the map or list view.
  - Add to favorites, get directions, share a listing, schedule a viewing or contact the listing agent.

NtreisGo provides on-the-go access to Ntreis MLS and Tax data for Ntreis subscribers, as well as offering the consumer access to current listing data and photos, a detailed map search and immediate contact with any agent you choose to use!

Ntreis subscribers can view active and off-market listing data. This native application will also allow you to share your branded version with your clients.
